Online LIVE Lean Fundamentals Webinar Program from SixSigma.us

Supporting organizations to solve problems with unknown solutions, from course instruction through project success.

This training is geared toward individuals that want a basic understanding of Lean or are interested in obtaining Lean Six Sigma certification.

Interested in Lean Six Sigma Certification?

You can add the 2 week Green Belt or 4 week Black Belt training and receive a Lean Six Sigma certification.

When you add the Lean Flow program to any of our Six Sigma programs, you can earn a Lean Six Sigma Certification. You will also receive the Lean Flow training at the reduced rate of only $1500, plus the cost of your Six Sigma Certification training. Please contact us for details.

3 Day Lean Fundamentals Agenda

- Overview of the Lean Initiative
- Incorporating Lean & Six Sigma
- Muda (or Waste) Eradication
- Value Stream Mapping (Present and Prospective State)
- How to Conduct a Lean Vision Events (or Kaizen Events)
- Flow, TAKT Time and PITCH Applications
- Replenishment Pull methods vs. Traditional "Push"
- Kanban or Visual Signaling
- Goldratt's "Theory of Constraints"
- 5S and Visual Control
- Poka Yoke (Error Proofing)

SixSigma.us is an authorized provider for PMI and IACET. Certificates of the students will have the renowned unit CEUs after successfully completing one of our approved training courses, plus any exams that might be required.

- 3 CEU's for successful completion of the three day training.

The webinar course is designed for anyone who wants more in-depth explanations of several key Lean topics: value, value stream map, Kanban, standard work, kaizen events, waste (muda), theory of constraints (TOC), 5S, error proofing, flow and pull. Individuals and business managers rely on this course as a solid foundation that gives them tools they can put in place to reduce redundancy, delays, wasted motion and rework immediately.

Those who complete this course are eligible for our Lean Agent Certification with a suitable project that illustrates concept application to improving one of your organization's processes.
