This course is designed for anyone who wants more in-depth explanations of several key Lean topics: value, value stream map, flow and pull. Individuals and business managers rely on this course as a solid foundation that gives them tools they can put into place to reduce redundancy and rework immediately. Those who complete this course are eligible for our Lean Agent Certification with a suitable project review.

Fundamentals of Lean Online Training Features

- Secure Downloadable Course Manual (Security program included)
- Ability to pursue Lean Agent Certification upon completion of the course and a project
- Once we process your payment we will provide you with your personal online training account

Online Program Includes

- Digital version of the same, complete Lean Methodology and Tools program delivered to our live classroom attendees
- On-demand, 24/7 access for 180 days of access to professionally narrated online 6Sigma.us training courses
- Access to the online companion manual delivered using LockLizard for secure access with the ability to print one copy for personal use
- Certificate of completion upon successfully completing all modules and tests
- Upon completion of the training and passing you will receive access to 3 CEUs from IACET and 30 PDUs from PMI
- Please note there are no refunds once the program has been started or 7 Days after purchase

Online Program Requirements

- Web browser: Internet Explorer 8, Firefox 2, Safari on Mac 1.2, or Google Chrome
